Capital Credits **B**

Power Line Safety **H**

Ladders placed too close to power lines become dangerous conduits of electricity. See the article on page H for more information.

Volunteers In Action Award Scholarships

The Halifax EMC Volunteers In Action awarded \$1,500 in scholarships to three local students in time for them to begin their freshman semesters at college.

Arlette Hawkins received the Volunteers In Action Educational Opportunity Scholarship. She is a graduate of Henrico High School and will be attending North Carolina A&T State University.

Christopher Braddy also received the Volunteers In Action Educational Opportunity Scholarship. Christopher

graduated from Hobgood Academy and will be attending North Carolina State University.

Brianna Barnes represented Halifax EMC on the 2014 Youth Tour to Washington, D.C. She was awarded the Volunteers In Action Youth Tour Scholarship. Brianna is also a graduate of Hobgood Academy and will attend Campbell University.

The Volunteers In Action Educational Opportunity Scholarship is awarded annually. Applicants must be a member of Halifax EMC or live in a household served by the cooperative, at least 18 years old, and be enrolled in an accredited North Carolina college/university (4-year, junior, community, vocational, or technical college). Next year's application deadline is July 1, 2016.

This particular scholarship is unique in that it is not limited to high school seniors to apply. Students who have already completed their first year and are returning for their second, third, fourth, etc., may also apply. It is also a great opportunity for adults who find themselves returning to school later in life.

Pictured clockwise are Arlette Hawkins, Christopher Braddy and Brianna Barnes.

WANTED:

Halifax EMC seeks to return refunds to these people

The listing on the following pages contains names of former HEMC members and/or current members whose capital credit checks were marked undeliverable. If you know any of these people, please pass the word to them to contact Halifax EMC at 252-445-5111 to claim their refund. Halifax EMC

continues to retire capital credits that accumulate to the estates of deceased members. If an application for a capital credit refund has not been submitted to the cooperative on behalf of a deceased member, a representative of the deceased member's estate may apply at the

cooperative's offices for the capital credits.

NOTE: This listing is in alphabetical order with last names first; however, some names may be listed alphabetically by first name. When looking for a name, check either order. If your name is not listed, you are not due capital credits.

Tell Us...

Halifax EMC is your electric cooperative. Your comments and questions are very important to us. Please tell us how we may improve our service.

Return your comments/questions along with your payment, or e-mail them to bamartin@halifaxemc.com. Specific account questions will be answered personally. Remember to include your account number for these types of questions.

Power Line Safety

Fall officially begins this month, and the cooler temperatures typically give way to lots of home improvement projects. Some of your projects might be around the yard. Landscaping is one of the best and most affordable ways to give your home's exterior a fresh look, but there's one thing many people don't consider before they start their landscaping projects—power lines. Before you grab your gardening gear, familiarize yourself with this list of power line safety tips:

- Do not attempt to trim trees near power lines. Halifax has an extensive right-of-way clearing program that ensures trees aren't too close to power lines, but if you happen to see any that may look too close, call your electric cooperative to send out the experts.
- If you have plans to build a tree house for your kids, be extremely cautious. Steer clear of all power lines to keep yourself and your children out of danger.
- Remember, ladders are conductors of electricity. It's best to carry a ladder horizontally so that it doesn't inadvertently touch a power line, and always pay attention to where you set up the ladder.
- Call 811 before you dig, even if it's just to plant a tree or shrub, to identify where underground utility lines are buried. Digging around lines can cause serious injury or even death, as well as electrical outages. For more information regarding N.C. 811, please visit www.nc811.org.
- The Electrical Safety Foundation International (ESFI) reminds you to "Look up! Look Down! Look Out!" This motto is especially important if your field of work requires you to be in the vicinity of power lines because contact with power lines can be deadly.

Remember, electricity looks for the shortest, most direct path to ground. A ladder, pole or even a wet kite string touching a power line will give electricity a new, shorter path to ground. If you are holding one of these items, you could become a part of that path. Those consequences could be deadly, so please exercise caution when you're around power lines. Call our office if you have any questions about power line safety.

Energy Efficiency Tip of the Month

Looking for an easy efficiency upgrade? Additional insulation can make a difference! The Department of Energy estimates you can reduce heating and cooling needs up to 30 percent by properly insulating and weatherizing your home.
